

75 Years of Member Driven Success

STATE OF THE ART: SURGICAL CHALLENGES AND
CREATIVE SOLUTIONS

INTERNATIONAL COLLEGE OF SURGEONS - UNITED STATES SECTION

OMNI HOTEL, JACKSONVILLE, FLORIDA
JUNE 5-8, 2013

ANNUAL SURGICAL UPDATE

REGISTRATION BROCHURE

REGISTRATION BROCHURE

Dear Colleagues,

It is my pleasure to invite you to attend the 75th Annual Surgical Update of the United States Section of the International College of Surgeons. Our milestone annual meeting will be held June 5-8, 2013 in beautiful downtown Jacksonville, Florida at the world-class Omni Hotel.

Our meeting will feature substantial participation by the University of Florida as well as the Mayo Clinic Jacksonville with the theme; State of the Art: Surgical Challenges and Creative Solutions. Various Department Chairs from both institutions have agreed to participate in our program to provide valuable insight into relevant topics that will meet your educational needs.

A keynote presentation will be made by Dr. Michael Nussbaum Chair of the Department of Surgery from the University of Florida who will enlighten us with, The Application of Robotic Technology in Minimally Invasive Surgery. I am delighted that Dr. Nussbaum and all the other highly respected leaders in surgery from the Jacksonville area have agreed to participate and I look forward to their contributions to our celebration of 75 years of member driven success.

Our planned programs for the 75th Annual Surgical Update have been developed through exhaustive research by the members of the Planning Committee to address your professional practice gaps. As you will note in this brochure a multi-disciplinary approach has been employed to accommodate the varied membership of our global society of surgeons and surgical specialists. The overall goals of this educational activity are to enhance your practice through improved performance, competence, knowledge and positive patient outcomes.

We have several special presentations I must point out that will be made by highly dignified faculty. Starting off our program will be Dr. Andrew Klein who will discuss, "Barbers of Civility." Later that day Dr. Richard Cote will present the Dr. Arno Roscher Endowed Lecture and enlighten us with "Dissecting Molecular

Pathways in Bladder Cancer." Finally on Saturday, my good friend and mentor, Dr. Paul Colombani, will present, "Twenty years Experience With Living-Related Liver Transplantation in Children," as our 2013 Honorary Fellowship Recipient.

I would be remiss if I did not also highlight some of our annual programs such as the research scholar competition and ethics session. We once again have impressive submissions for the scholarship competition that will showcase the future of the surgical profession. The ethics session promises to stimulate a great deal of new discussion as medical and bioethics are defined, compared and differentiated. Additionally, we will continue our tradition of providing updates on the US Section's recent Humanitarian Outreach activities. Luncheon presentations will be made on Thursday and Friday that should encourage everyone to make an effort to give back.

Several workshops are also offered including a new twist on a not so old topic. Seeing and Sticking with Sound, is an interactive "hands-on" workshop utilizing ultrasound equipment and phantoms demonstrating the use of ultrasound for diagnosis, monitoring and therapy. The workshop will have a brief didactic component and a dedicated practice component allowing participants the opportunity to experiment and learn how to use this technology effectively.

Please plan to join us in beautiful Jacksonville for the US Section's celebration of 75 years of member driven success. We are planning a special treat for all those who attend. Send in your registration today and join us!

Sincerely,

Gazi B. Zibari, MD, FICS
President, United States Section
International College of Surgeons

BUSINESS MEETINGS

The **ICS-US Business Meetings** will be conducted throughout the day on Wednesday, June 5th beginning at 8 am with the Standing Committees. The Board of Regents and House of Delegates meetings will begin after lunch on that same day.

All meeting attendees are invited to attend an **Opening Reception** in the evening on June 5th to mark the start of our 75th Annual Surgical Update.

The **American Academy of Neurological and Orthopaedic Surgeons Board of Directors Meeting** will be held on Friday, June 7th following that day's scientific programming.

Course Sponsor

International College of Surgeons - United States Section
An ACCME Accredited Provider

OVERALL COURSE OBJECTIVES

The Annual Surgical Update is designed to offer information regarding the latest surgical advancements and technology to address gaps in knowledge that may exist for practicing surgeons in all surgical specialties, residents in training, and allied health professionals. The desired outcome of this program is increased knowledge, better competency in cutting edge treatment modalities, and enhanced treatment decision making. It is the expressed goal of the course to provide enough material that upon completion of the activity the participant can make educated decisions to incorporate the latest surgical techniques and technologies as well as discern when these procedures are warranted to provide optimum patient care.

Topics presented during the Annual Surgical Update have been designed to address and improve the attendee's knowledge and skills in the following competencies; patient care or patient-centered care, medical knowledge, practice-based learning & improvement, quality improvement and professionalism.

Disclosure Policy

It is the policy of the International College of Surgeons-US Section that any individual who is involved in planning or presenting in a program designated for AMA Physician's Recognition Award Category 1 Credit™ must disclose all relevant financial relationships with a commercial interest prior to being included in the final program. This information is disclosed to the audience prior to the activity. The ICS-US has procedures in place to address a conflict of interest should one arise. Our complete Policy on Commercial Support and Independence is available on FICS Online or by request from Headquarters. Additionally, faculty members are asked to disclose when any discussion of unapproved use of a pharmaceutical or medical device occurs.

Accreditation

The International College of Surgeons-United States Section is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor Continuing Medical Education for physicians.

Credit Designation

The International College of Surgeons-United States Section designates this live activity for a maximum of 24 AMA PRA Category 1 Credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Featured Presentations

OPENING LECTURE

Andrew S. Klein, MD, FICS, FACS, MBA, Director, Comprehensive Transplant Center Esther and Mark Schulman Chair in Surgery and Transplantation Medicine, Professor and Vice-Chair, Department of Surgery, Cedars-Sinai Medical Center, Los Angeles, CA

Dr. Klein received his medical degree from Johns Hopkins School of Medicine, where he also completed internships and residencies. He was a research fellow in transplantation immunology at Massachusetts General Hospital and a fellow in liver transplantation at the University of California, Los Angeles (UCLA).

Dr. Klein previously served as Chief of the Division of Transplantation at Johns Hopkins. He was the Founding Director of the Johns Hopkins Comprehensive Transplant Center, and he was a tenured professor of surgery at Johns Hopkins School of Medicine.

Dr. Klein has played a leadership role in the development of national policies for organ allocation. He is a former chairman of the United Network of Organ Sharing (UNOS) Liver and Intestinal Transplantation Committee. He also served as the UNOS Region 2 Councilor. He is presently Chairman of the UNOS Living Donor Transplantation Committee and was elected Secretary of UNOS in 2004. In addition, Dr. Klein has been elected to the Governing Board of the American Association for the Study of Liver Diseases (AASLD). Dr. Klein will present; **Barbers of Civility**.

THE DR. ARNO A. ROSCHER ENDOWED LECTURE

Arno A. Roscher, MD, FICS (HON.) FCAP, FASCP, Los Angeles, CA.

Dr. Arno A. Roscher, a trained surgeon who immigrated to the United States from Germany and pursued a successful career in Pathology, has been a Fellow of the International College of Surgeons since 1968. Dr. Roscher has remained active in ICS activities throughout his over 40 years as a member. He has also held numerous elected leadership positions at both the US Section and international levels. When he contributed \$100,000 to the US Section in 2009 the Dr. Arno A. Roscher Endowed Lecture was established. This year marks the fifth anniversary of this special lecture that has featured renowned physicians presenting on varied topics ranging from the Reduction of Health Disparities to Molecular Genetic Testing.

Richard J. Cote, MD, FRCPath, FCAP; University of Miami Miller School of Medicine, Professor and Joseph R. Coulter Jr. Chair, Department of Pathology Chief of Pathology, Jackson Memorial Hospital, Director, Dr. John T. Macdonald Foundation Biomedical Nanotechnology Institute, Miami, FL

Dr. Cote, is a nationally recognized expert on the cellular and molecular markers of tumor progression in cancer patients. A major research area for Cote has been the molecular biology of prostate and bladder cancer. His lab has identified the pathways by which cells become malignant, and the mechanisms by which the tumors progress. Cote has led three of the largest clinical trials in breast, lung and bladder cancer, which were based on discoveries from his research that identified molecules and pathways important in assessing treatment response. Dr. Cote will present; **Dissecting Molecular Pathways In Bladder Cancer: A Rational Approach to Prognostic Profiling and Target Discovery**.

KEYNOTE PRESENTATION

Michael S. Nussbaum, MD, FACS, FICS, Professor and Chair, Department of Surgery, Division of General Surgery; Program Director, Surgery Residency; Program Director, Minimally Invasive Surgery Fellowship; University of Florida College of Medicine, Jacksonville, FL

Dr. Nussbaum completed his medical education at the University of Pennsylvania School of Medicine and his surgical residency training at the University of Cincinnati College of Medicine. His clinical special interests include: minimally invasive surgery; robotic surgery; gastroesophageal reflux; biliary disorders; inflammatory bowel disease; peptic ulcers; and endocrine disorders. His research special interests include: outcomes studies involving minimally invasive surgery, clinical pathway development, surgery for inflammatory bowel disease, and the surgical treatment of swallowing disorders. Dr. Michael Nussbaum will deliver the keynote presentation titled; **The Application of Robotic Technology in Minimally Invasive Surgery**.

2013 HONORARY FELLOW

Paul M. Colombani, MD, Professor of Surgery, Children's Surgeon-in Charge, at The Johns Hopkins Hospital, Lutherville, MD

Dr. Paul Colombani has been the Children's Surgeon-in-Charge at The Johns Hopkins Hospital since December 1991. He is the Robert Garrett Professor of Pediatric Surgery and Professor of Surgery, Oncology, and Pediatrics. He attended University of Kentucky College of Medicine. His general surgery residency was done at George Washington University Hospital in Washington, D.C. He completed a Pediatric Surgery residency at Johns Hopkins in 1983 and then joined the faculty. Dr. Colombani also directs the Pediatric Transplant Program at Johns Hopkins Hospital. Dr. Colombani will present: **Twenty years Experience With Living-Related Liver Transplantation in Children**.

2012 HONORARY FELLOW

H. Randolph Bailey MD, Clinical Professor of Surgery at the Weil Cornell Medical College and The University of Texas Health Science Center, Houston, TX

Dr. Bailey is the Chief of the Division of Colon and Rectal Surgery at the Methodist Hospital as well as the Deputy Chief of the Department of Surgery. He received his medical education and MD degree from the University of Texas Southwestern Medical School in Dallas. His general surgical training was at the University of Texas Health Science Center in Houston and his colon and rectal surgical training at the Ferguson Hospital in Michigan. He is board certified in both general and colon and rectal surgery. He has served as the president of both the American Society of Colon and Rectal Surgeons and the American Board of Colon and Rectal Surgery. He is currently a member of the Board of Regents of the American College of Surgeons. Dr. Bailey was selected as the 2012 Honorary Fellow but was unable to participate in the meeting. We are pleased that he will be able to participate this year and present; **Improving Perioperative Care - Can We Shorten Recovery and Improve Outcomes?**

DETAILS ARE STILL BEING FINALIZED, AND THE ACTUAL PROGRAM IS SUBJECT TO CHANGE.

Scientific Program

Thursday, June 6, 2013

OPENING CEREMONY & SPECIAL LECTURE

Welcome

Nicholas Rebel, Executive Director, US Section, ICS, Chicago, IL

US Section President's Welcome and Introduction of Special Lecture

Gazi B. Zibari, MD, FICS, FACS United States Section President, Professor of Surgery, Department of Surgery, Louisiana State University Health Sciences Center, Shreveport, LA

Barbers of Civility

Andrew Klein, MD, MBA, FICS, FACS, Director, Comprehensive Transplant Center, Esther and Mark Schulman Chair of Surgery, Transplant Medicine Professor, Vice-Chair, Department of Surgery Cedars-Sinai Medical Center, Los Angeles, CA

Uncivil behavior is escalating in society at large and this poses particular challenges in the surgical workplace. This presentation will raise awareness of the costs both in dollars and in human misery of incivility in the practice of medicine by looking in particular at the case of surgeons.

MANAGEMENT OF PORTAL HYPERTENSION

This session will identify the treatments for portal hypertensive bleeding that are available and discuss advantages as well as significant side effects or complications, with the choice of therapy. In addition, the role of liver transplantation in the management of HCC in current clinical practice will be discussed. Upon completion of the course participants will know how to determine the most appropriate treatment for portal hypertensive bleeding thus improving patient care while reducing morbidity and mortality as well as extensive resource expenditures.

Shunting Options for Portal Hypertension

Alexander Rosemurgy, MD, Director, Surgical Digestive Disorders and GERD Center Director, HPB Surgery and Fellowship Program Southeastern Center for Digestive Disorders and Pancreatic Cancer Advanced Minimally Invasive and Robotic Surgery Florida Hospital, Tampa, FL

Role of TIPS in Portal Venous Hypertension Management

Horacio D'Agostino, MD, FICS, FACS, FSIR, Professor of Radiology, Surgery, and Anesthesiology, Chair Dept. of Radiology, LSUHSC, Shreveport, LA

Role of Liver Transplantation in the Management of Portal Hypertension and HCC

Cataldo Doria, MD, PhD, FICS, Nicoletti Family Professor of Transplant Surgery, Director, Division of Transplantation, Surgical Director Liver Tumor Center, Jefferson Medical College, Thomas Jefferson University Hospital, Philadelphia, PA

LATE COMPLICATIONS FOLLOWING REPAIR OF CONGENITAL MALFORMATIONS

This session will identify and define long term issues and complications related to congenital malformations. Upon completion of the course participants will increase their knowledge and ability to identify complications related to various congenital malformations that occur later in life.

Late Complications Following Repair of Esophageal Atresia

Saleem Islam, MD, MPH, Associate Professor of Surgery University of Florida, Gainesville, FL

Congenital Diaphragmatic Hernia: Survival, Outcomes and Long-Term Follow-Up Issues as More Severely Afflicted Newborns Survive

David W. Kays, MD, Associate Professor and Chief Pediatric Surgery, University of Florida; Surgeon-In-Chief, Shands Hospital for Children, Gainesville, FL

Long Term Outcomes of Congenital Anorectal Malformations and Hirschsprung's Disease

Belinda Dickie, MD, PhD, Cincinnati Children's Hospital Medical Center, Cincinnati, OH

Midgut Volvulus in Adolescents and Adults; Incidence, Diagnosis and Management

Johanna Serrano, MD, General Surgery Resident, PGY2, Pinnacle Health, Harrisburg, PA

12:00 PM to 1:30 PM

Lunch - Humanitarian Outreach Presentation

ICS Humanitarian Outreach - Surgical Team Update and Introduction of Dr. Domingo Alvear

Gazi B. Zibari, MD, FICS, Shreveport, LA

The Global Surgical Burden of Disease - Who Can Help and How Can We Help?

Domingo T. Alvear, MD, FICS, Chief, Division of Pediatric Surgery Pinnacle Health Hospital, Harrisburg, PA

Scientific Program

THE DR. ARNO ROSCHER ENDOWED LECTURE

Despite elaborate characterization of risk factors, bladder cancer is still a major epidemiological problem and the ninth most common malignancy worldwide. Urothelial carcinoma is now recognized as a disease of alterations in several cellular processes. Clinical trials for targeted chemotherapy for bladder cancer have commenced, and future trials will aim to treat urothelial carcinoma based on a patient's molecular profile to empower physicians to personalize patient treatment through increased therapeutic efficacy. The future of bladder cancer management will rely on the use of detection techniques that reliably diagnose the presence of disease, marker panels that predict individual tumor behavior, and molecular targets that allow deployment of novel therapeutics. Participants in this special lecture will have improved comprehension of detection and treatment options for bladder cancer.

Dissecting Molecular Pathways In Bladder Cancer: A Rational Approach to Prognostic Profiling and Target Discovery

Richard J. Cote, MD, FRCPath, FCAP; University of Miami Miller School of Medicine, Professor and Joseph R. Coulter Jr. Chair, Department of Pathology, Chief of Pathology, Jackson Memorial Hospital, Director, Dr. John T. Macdonald Foundation Biomedical Nanotechnology Institute, Miami, FL

VASCULAR SURGERY AND THE DIABETIC FOOT

This session will include discussion of the epidemiology of diabetic foot pathology and infections, diagnosis of diabetic neuropathy and associated conditions, the pathophysiology of diabetic foot infections giving emphasis on clinical diagnosis and use of current technology to diagnose associated local and systemic complications, surgical site infections and control of the venous circulation. Upon completion of this course participants will improve their ability to discuss, evaluate and interpret various issues related to the treatment of the diabetic foot as well as other vascular considerations.

Diabetic Foot: Prevalence & Management in India

Rajesh Shah, MD, FICS, Professor of Surgery, AMCMET Medical College, Past President: International College Of Surgeons-Indian Section, Ahmedabad, Gujarat, India

New Frontiers in the Treatment of Limb Threatening Ischemia

Albert G. Hakaim, MD, Professor of Surgery, Chair Department of Vascular Surgery, Mayo Clinic, Jacksonville, FL

Salvage of Limb with Diabetic Gangrene of the Foot

Clinically Significance Incidental Computed Tomographic (CT) Finding in Patients Undergoing Endovascular Aortic Aneurysm Repair

Tze-Woei Tan, MD, Assistant Professor of Surgery, Louisiana State University Health Sciences Center, Shreveport, LA

Venous Circulation Control in the Healing of Neuropathic Ulcers

Frank P. Bongiorno, MD, FICS, Wound Specialists of Michigan, PLLC, Ann Arbor, MI

MINIMALLY INVASIVE BARIATRIC SURGERY TECHNICAL OPTIONS

This session will identify current approaches, risks and advantages for Minimally Invasive Bariatric Surgery. Upon completion of this course participants will increase their knowledge of various approaches for Minimally Invasive Bariatric Surgery along with the corresponding risks and advantages.

Upper GI Endoscopy is an Essential Precursor to Sleeve Gastrectomy

Jennifer Wilson, MbchB, Sunderland Royal Hospital, Sunderland, Tyne and Wear, United Kingdom

GI Bariatric Surgery: Latest Advances

Bestoun Ahmed, MD, FRCS, Assistant Professor of Surgery, University of Florida, Jacksonville, FL

Minimally Invasive Gastric Banding

Mubashir A. Sabir, MD, Farmington Hills, MI

Complications requiring Reoperation and Readmission after Laparoscopic Roux-en-Y Gastric Bypass and Laparoscopic Sleeve Gastrectomy

Jennifer Wilson, MbchB, Sunderland Royal Hospital, Sunderland, Tyne and Wear, United Kingdom

Panel Discussion

75th Annual Surgical Update
State of the Art: Surgical Challenges and Creative Solutions
June 5-8, 2013, Jacksonville, Florida

Friday, June 7, 2013

RESEARCH SCHOLARSHIP COMPETITION

The Scholarship Committee of the ICS-US Section accepts submissions from medical students, surgical residents and surgical fellows. Participants have submitted an original clinical research paper with pertinent clinical application for this annual competition. All papers are judged and scored by the members of the ICSUS Section Scholarship Committee prior to the Annual Surgical Update. An additional panel of judges will score the oral presentation of the research during the meeting in Jacksonville. Scores will be tallied and those with the highest combined score will be awarded prizes. Participants in this session will be presented with the latest research being conducted by some of the brightest young minds in medicine and surgery.

A True Orthotopic Gastric Cancer Murine Model Using Electrocoagulation

Jasneet S. Bhullar, MD, Surgery Resident, Providence Hospital & Medical Centers, Southfield, MI

Total Face and Multi-Organ Procurement from a Brain-Dead Donor: Institutional Experience and Proposed Algorithm

Phillip Brazio, MD, Surgical Resident, University of Maryland, Baltimore, MD

Acute Appendicitis in Elderly: Diagnosis and Management Still a Challenge

Sushant Chaudhary, MD, MS, Resident Department of Surgery, Providence Hospital and Medical Center, Southfield, MI

Pathology Encountered on Short-Term Surgical Mission Trips to the Dominican Republic

Jonathan Egle, MD, General Surgery Resident, Providence Hospital and Medical Centers, Southfield, MI

Arterial Versus Venous Fluid Resuscitation; Restoring Cardiac Contractions in Cardiac Arrest Following Exsanguinations

Alireza Hamidian Jahromi, MD, General Surgery Resident, Department of Surgery, Louisiana State University Health Sciences Center, Shreveport, LA

Revision Decompression and Collagen Nerve Wrap for Recurrent and Persistent Compression Neuropathies of the Upper Extremity and Systemic Review of the Literature

Ali Soltani, MD, Hand and Microsurgery Fellow, University of Miami/Jackson Memorial Hospital, Miami, FL

Bupivacaine Pain Pumps in Rats Leads to Increased Adhesions and Does Not Decrease the Neuroma Formation

Gokulakrishna Subhas, MD, Resident in Surgery, Providence Hospital and Medical Centers, Southfield, MI

Review of Colorectal Anastomotic Leaks Based on Indications for Surgery, Benign vs Inflammatory Bowel Disease vs Neoplastic: a Ten Year Retrospective Study
Philip Sunu, MD, Resident, General Surgery, Providence Hospital and Medical Centers, Southfield, MI

Comparison of Mammographically and Self-Detected New Breast Lesions at a Community Breast Cancer Center

Thomas D. Willson, MD, Resident, Saint Joseph Hospital, Chicago, IL

ANNUAL INTERACTIVE ETHICS SESSION

This interactive audience discussion will focus the conversation on the way the late 20th century science of bioethics often mandates ethical decisions in regards to patient care management and end of life dilemmas. This session will highlight the dialogue necessary when the contemporary science of the bioethical system interferes with the ancient art of medical ethics.

Medical Ethics vs Bioethics - When Do They Differ?

Frank P. Bongiorno, MD, FICS, Ann Arbor, MI

12:00 PM to 1:30 PM

Lunch - Humanitarian Outreach Presentation

Operation Hope: Humanitarian Medical Outreach

John Thomas, MD, Lubbock, TX

KEYNOTE LECTURE

This special presentation will provide information on the role of robotic technology in minimally invasive surgery. Participants will develop a better understanding of various minimally invasive surgical approaches, particularly in the management of achalasia.

The Application of Robotic Technology in Minimally Invasive Surgery

Michael S. Nussbaum, MD, FACS, FICS, Professor and Chair, Department of Surgery, Division of General Surgery; Program Director, Surgery Residency; Program Director, Minimally Invasive Surgery Fellowship; University of Florida College of Medicine, Jacksonville, FL

Scientific Program

INTEGRATIVE MULTI DISCIPLINARY MANAGEMENT OF PERIPANCREATIC FLUID

This session will discuss various approaches for drainage of peripancreatic fluid. Upon completion of this course participants will have a better understanding of the issues related to and management of drainage of peripancreatic fluid as well as how these issues relate to pancreas transplant.

Percutaneous Drainage of Peripancreatic Fluid Collections - A Case Presentation

Horacio D'Agostino, MD, FICS, Professor of Radiology, Surgery, and Anesthesiology, Chair Dept. of Radiology, LSUHSC, Shreveport, LA

Laparoscopic Drainage of Peripancreatic Fluid Collections - A Case Presentation

Michael Jacobs, MD, FICS, FACS, Clinical Professor of Surgery, Section Chief - General Surgery, Director - HPB Program, St. John/Providence Health System, Southfield, MI

Role of Total Pancreatectomy and Islet Autotransplantation in Management of Refractory Abdominal Pain Due to Chronic Pancreatitis

M. Hosein Shokouh-Amiri, MD, FICS, Clinical Professor of Surgery, LSUHSC, Shreveport, LA

Pancreas Transplantation (PTX) with Venous Drainage to IVC: Short and Long-Term Outcome

Mark R. Laftavi, MD, FICS, Surgical Director of Transplant Department at Erie County Medical Center, Buffalo, NY

Pancreatic Cancer Screening - Ready for Prime Time or Doomed to Fail?

Roberto Gamarra, MD, Assistant Clinical Professor - Oakland University School of Medicine, Farmington Hills, MI

MANAGEMENT OF MEDIASTINAL PATHOLOGY

Young adults present to the Emergency Department with shortness of breath and pleuritic chest pain and are found to have unexplained mediastinal emphysema. This session will review optimal imaging studies required for a thorough but expeditious work-up of mediastinal emphysema in the non-trauma setting and the reduction of the number of imaging studies performed as well as in-patient hospital admissions for patients with non-traumatic mediastinal emphysema. In addition, the management of malignant pleural mesothelioma and thoracic empyema will be reviewed. Upon completion of this course participants will have obtained the necessary knowledge to improve diagnosis and management of these conditions.

Spontaneous Mediastinal Emphysema - A Clinical Quandary

Francis J. Podbielski, MD, MS, FICS, Associate Professor of Surgery, University of Massachusetts Medical School, Plymouth, MA

Trends and Practice Pattern in the Management of Thoracic Empyema

Sibu P. Saha, MD, MBA, FICS, Professor of Surgery, University of Kentucky, Lexington, KY

Controversies and Current Management of Malignant Pleural Mesothelioma

Wickii T. Vigneswaran, MD, FICS, Professor of Surgery, Associate Chief of Cardiac and Thoracic Surgery, Director of Lung and Heart Lung Transplantation, University of Chicago Medical Center, Chicago IL

Saturday, June 8, 2013

CHALLENGES FOR THE ACUTE CARE SURGEON

This session will focus on the identification and treatment options for challenging cases in acute care surgery. Upon completion of this course participants will improve their understanding of the various options to treat the types of cases discussed and be better prepared to provide optimum patient care.

Management of the Exsanguinating Patient: What the Trauma Surgeon Knows That Every Elective Surgeon Should Know

Mallory Williams, MD, MPH, FICS, Associate Professor of Surgery, University of Toledo College of Medicine Chief, Division of Trauma, Critical Care, & Acute Care Surgery, Toledo, OH

The Open Abdomen: Stepping Up to the Challenge

Lou M. Smith, MD, FICS, University of Tennessee at Knoxville Associate Professor of Surgery, Knoxville, TN

A Trauma Training Program for Countries with Developing Trauma Systems

James Davis, MD, University of Miami Miller School of Medicine, Miami, FL

Traumatic Abdominal Wall Hernia: A Case Series From a Rural Level I Trauma Center

Lacey Stelle, MD, General Surgery Resident, Carle Foundation Hospital, Urbana, IL, Clinical Instructor of Surgery, University of Illinois, Urbana, IL

Percutaneous Retrieval of Retrohepatic IVC Missile

Jesse Flores, MD, Department of Surgery, Texas Tech University Health Science Center, Lubbock, TX

Thigh Hematoma: A Different Type of Compartment Needing a Different Type of Approach

Ashley Mekala, DO, Department of Surgery, Texas Tech University Health Science Center, Lubbock, TX

75th Annual Surgical Update

State of the Art: Surgical Challenges and Creative Solutions

June 5-8, 2013, Jacksonville, Florida

ROBOTIC SURGERY AND OTHER TECHNOLOGY ADVANCEMENTS

Covering the entire spectrum of surgery, robotic options and other technology advances will be presented during this multidisciplinary session. Upon completion of this course participants will increase their understanding of the advances presented allowing for improved patient care decisions.

TORS: How Robotic Surgery is Changing Head and Neck Surgery

Marc R. Dean, MD, FICS, Assistant Professor of Otolaryngology, LSUHSC, Shreveport, LA

Review of Cataract Surgery: Where it Has Been and Where it is Going

Phillips Kirk Labor, MD, FICS, Founder, Eye Consultants of Texas, Grapevine, TX

Surgical Management and Risk-Reduction in Patients with Hereditary Breast and Gynecologic Cancer Syndromes

Robin A. Lacour, MD, MPH, FICS, Clinical Assistant Professor, Gynecologic Oncology, Louisiana State University Health Sciences Center, Shreveport, LA

The Utility of Preoperative MR Breast in Changing the Surgical Management of Patient's Newly Diagnosed with Breast Cancer

Nikhil Rajadhyaksha, MD, Radiology Resident, Providence Hospital and Medical Center, Royal Oak, MI

Prostate Cancer High Intensity Focused Ultrasound Therapy Biomedical Challenge in Development of Probe Pressure Sensor

Brad Bilowus, BS, Medical Student MS-4, Aureus University School of Medicine; University of Virginia Biomedical Engineering, Reston, VA

Percutaneous Drainage of Diverticular Abscess Should Be Limited to Two Attempts for Recurrent Diverticular Abscess

Gokulakrishna Subhas, MD, Resident in General Surgery, Providence Hospital and Medical Centers, Southfield, MI

12:00 PM to 1:30 PM

Lunch - Practice Management Presentation

Management of Legal, Tax, and Insurance Liability Risks for Practice Profitability in 2013

Victoria J. Powell, JD, LLM, President of P Inc., Ridgeland, MS

HONORARY FELLOW LECTURES

These special lectures are presented by our 2012 and 2013 Honorary Fellowship Recipients. Both are esteemed as accomplished lecturers renowned experts in their respective fields of surgery as described in their brief biographies on page 4 of this brochure.

Improving Perioperative Care - Can We Shorten Recovery and Improve Outcomes?

H. Randolph Bailey MD, FICS (Hon. 2012), Clinical Professor of Surgery at the Weil Cornell Medical College and The University of Texas Health Science Center, Houston, TX

Twenty years Experience With Living-Related Liver Transplantation in Children

Paul M. Colombani, MD, FICS (Hon. 2013), Professor of Surgery, Children's Surgeon-in Charge, at The Johns Hopkins Hospital, Lutherville, MD

TRANSPLANTATION IN THE 3RD MILLENNIUM

Transplantation has evolved into an accepted therapy for many congenital or acquired disorders. We have seen major changes in indications and transplant techniques. This session will provide updates on various types of transplantation cases and related treatment options and risks. Upon completion of this course participants will increase their knowledge and ability to discuss treatment options and risks with patients that are considering various types of transplantation.

Transplantation of a Severed Arm

Joshua Salvador, MD, FRCS(C), Past President of the Denton Cooley Surgical Society, Hollywood, FL

Translational Strategies to Improve Outcomes of Liver Transplantation: From Bench to Bedside

Reza F. Saidi, MD, FICS, FACS, Assistant Professor of Surgery Division of Organ Transplantation Department of Surgery University of Massachusetts Medical School, Worcester, MA

Risk Factors (RF) Affecting Long-Term (LT) Outcomes in Older Kidney Transplant Recipients (KTR): 10 Year Outcomes

Mark R. Laftavi, MD, FICS, Surgical Director of Transplant Department at Erie County Medical Center, Buffalo, NY

Scientific Program

SURGICAL ONCOLOGY

Various oncologic issues are discussed in this session comprised of invited presentations and submitted abstracts. Participants will increase their knowledge as it relates to the unique complications of surgical oncology.

Featured Presentation

Prognostic Impact of Colorectal Liver Metastases and Locally Advanced CRC

Xishan Wang, MD, Professor of Surgery, The Second Affiliated Hospital of Harbin Medical University, Director, Department of Colorectal Surgery, Director, Cancer Center, Director, Colorectal Cancer Institute of Harbin Medical University, Harbin, China

Prognostic Significance of SUV Max Value at the Time of Initial Diagnostic 18F-FDG PET/CT in Patients with Pancreatic Adenocarcinoma

Alireza Hamidian Jahromi, MD, Resident of General Surgery, Department of Surgery, Louisiana State University Health Sciences Center-Shreveport, LA

Comparative Effectiveness and Survival Benefit of Liver Directed Therapy, Systemic Chemotherapy and Radiation Therapy in Stage Four HCC: A SEER-Medicare Analysis

Nader N. Hanna, MD, FICS, Professor of Surgery & Director of Clinical Operations Division of General & Oncologic Surgery, Baltimore, MD

Leiomyosarcoma Arising from the Right Lobe of the Liver: A Case Report

Jobelle Joyce Anne Baldonado, MD, Resident, Department of Surgery, Philippine General Hospital, Manila, Philippines

Accuracy of 18F-FDG PET/CT in the Diagnosis of Pancreatic Lesions: A Single Center Experience

Mohammad Kazem Fallahzadeh, MD, Postdoctoral Fellow, Department of Surgery, Louisiana State University Health Sciences Center-Shreveport, LA

NEUROLOGICAL AND ORTHOPAEDIC SURGERY PLATFORM PRESENTATIONS

Friday, June 7 and Saturday, June 8, 2013

The ICS-US Section Chairs of Neurosurgery and Orthopaedic Surgery are developing this two-day break-out session that will feature internationally renowned guest speakers who will give presentations in their areas of expertise focusing on state-of-the-art neurosurgery and orthopaedic surgery. Abstract submissions relevant to this year's theme, State of the Art: Surgical Challenges and Creative Solutions will also be presented.

Detailed speaker and topic information will be circulated as soon as available and will also be posted on FICS Online.

Hands-On Workshops

SEEING AND STICKING WITH SOUND: ULTRASOUND GUIDED VASCULAR ACCESS AND FAST FOR SURGEONS

Friday, June 7, 2:30pm-5:00pm

Surgeons, anesthesiologists, ER/ED physicians who need to place central and peripheral lines or pathologists who need to biopsy solid organs currently do so without image guidance. This contributes to patient morbidity and mortality, failed procedures and unnecessary complications. This course will provide a basic knowledge of ultrasound technique through a series of didactic presentations as well as hands-on experience in ultrasound guided needle localization, vascular access, and FAST exam. Upon completion of this course the participant will understand as well as feel comfortable with basic ultrasonography and will also be able to begin using these techniques in practice.

Didactic Series Faculty

Basics of Ultrasound

Zaki-Udin Hassan, MD, FICS, Associate Professor, Director of the Simulation Center, Department of Anesthesiology, University of Kentucky, Lexington, KY

Ultrasound Guided Needle Localization

Horacio D'Agostino, MD, FICS, Professor of Radiology, Surgery, and Anesthesiology, Chair Dept. of Radiology, LSUHSC, Shreveport, LA

FAST Exam

Annette Rebel, MD, FICS, Assistant Professor of Anesthesiology, Department of Anesthesiology, University of Kentucky, Lexington, KY

Endovascular Technique

Wayne Zhang, MD, FICS, Associate Professor and Chief Vascular & Endovascular Surgery, LSUHSC, Shreveport, LA

Hands-On Workshop Instructors

Ultrasound Guided Needle Localization

Horacio D'Agostino, MD, FICS

Ultrasound Guided Vascular Access

Zaki-Udin Hassan, MD, FICS

FAST/ER Fans

Annette Rebel, MD, FICS

Asser Youssef, MD, FICS, Assistant Professor of Surgery, Chief/Medical Director, Trauma and Critical Care Surgery, LSUHSC, Shreveport, LA

Endovascular Simulation

Wayne Zhang, MD, FICS

This workshop requires a separate registration fee of \$50 in addition to the PAID general registration fee. Registration in advance is required as space is limited and will be assigned on a first come-first served basis.

CHALLENGES IN ABDOMINAL WALL RECONSTRUCTION: MANAGEMENT OF THE OPEN ABDOMEN AND COMPLEX HERNIAS

Saturday, June 8, 8:00am-12:00pm

Offering a comprehensive review of pre-clinical and clinical data this session will discuss the management of the open abdomen as well as complex hernias and the challenges posed to even the most experienced surgeon. New technologies using both biological and synthetic mesh as well as the latest applications utilizing wound closure devices will be demonstrated during a hands-on cadaver lab. During this interactive workshop participants will learn how to identify appropriate indications and appropriate operative techniques in management of the complex abdominal wall hernia. Participants will also increase their knowledge of hernia repair techniques, materials and indications for use.

Anthony N. Dardano, DO, ICS-US Co-Chair Division of Plastic Surgery, Voluntary Assistant Professor of Surgery, Miller School of Medicine, University of Miami, Miami, FL

Jose F. Yeguez, MD, Department of Surgery at Boca Raton Regional Hospital and Delray Medical Center, Boca Raton, FL

This workshop requires a separate registration fee of \$100 in addition to the PAID general registration fee. Registration in advance is required as space is limited and will be assigned on a first come-first served basis.

Social Activities

ALLIANCE BOARD OF DIRECTORS & GENERAL MEMBERSHIP MEETING

Wednesday 2:00-3:00 PM June 5
Please join us to discuss Alliance plans for the Annual Meeting and beyond. Topics will include future leaders, and current & future social activities for the Alliance. If you have ever wondered what the Alliance is or does, then this meeting shouldn't be missed.

WELCOME RECEPTION

Wednesday 6:00-7:00 PM June 5
Our first evening in Jacksonville begins with a cocktail reception. Join us as we kick off our very special 75th annual meeting; reconnect with old friends and meet members you may not have encountered before. 75 years wouldn't happen without our members, join us as we celebrate your commitment to the College.

JACKSONVILLE "TOP TO BOTTOM" WALKING TOUR

Thursday 2:00-3:45 PM June 6
Your professional tour guide will meet you to show you Jacksonville from sky line views to beneath the city streets. Once known as "Cowford", the picturesque city along the river has grown to be the largest city in land area in the continental United States. Hear how Jacksonville rose from the ashes to emerge as an architectural gem of the South. The city was also the first Hollywood for movie making before the talkies. The walking tour goes inside seven buildings including an art gallery. The "Top" is an amazing panoramic view from the tallest skyscraper while the "Bottom" is the subterranean city with secret underground tunnels and bank vaults. Hear the exploits of past Presidents, great American architects, and the silent movie stars as we walk through time. The award-winning tour is rated EXCELLENT by Trip Advisor and was featured on PBS television. **Price: \$20.**

ST. AUGUSTINE EXCURSION

Friday 9:30 am-3:00pm June 7
During your trip to St. Augustine your tour director will weave a tapestry of stories from the Ponce de Leon discovery period, the pirate days of Sir Francis Drake, the Spanish and English colonial years, and the Victorian Flagler era. Before you know it you'll be stepping onto the cobblestones of St. George Street.

You'll have an opportunity to shop and explore the historic district on your own. Alternatively, you may want to stay with the tour guide to take a more intimate look inside the historic houses or magnificent hotels containing the stained glass work of Louis Comfort Tiffany. Your guide creates an interactive tour atmosphere which is fun for everyone. **Seats are limited please book before May 15. Price: \$65 before May 15. Price: \$90 After May 15.**

4TH ANNUAL AANOS FUNDRAISING EVENT AND AWARDS DINNER

Friday June 7
The 4th Annual AANOS Fundraising Event and Awards Dinner will feature an elegant dinner, award presentations, and entertainment. **Price: \$100 per person. Tickets must be ordered in advance.**

UNITED STATES SECTION CONVOCATION & PRESIDENTIAL RECOGNITION CEREMONY

Saturday 6:30 PM June 8
All attendees, families, friends and guests are invited to attend this hallmark event, the 75th Annual Convocation of the US Section. Brimming with splendor and pageantry, this impressive ceremony includes the formal induction of New Fellows and this year's Honorary Fellow into the College. Join us in this celebration of the College, all of its Fellows, and their accomplishments.

NEW FELLOWS RECEPTION

Saturday 7:30 PM June 8
Immediately following the Convocation and Presidential Recognition Ceremony, this reception will afford you the opportunity to meet your National Section and International Officers, provide you with the opportunity to meet your newest colleagues from coast to coast, and of course, honor our incoming President and award winners. All attendees are encouraged to attend.

GALA DINNER

Saturday 8:30 PM June 8
We end our meeting and our week together as we started it; in Fellowship, join us as we come together for one last event to mark our Diamond Anniversary; 75 years of Member Driven success before we bid farewell until next year. We have some wonderful entertainment planned to celebrate this milestone of scientific education and fellowship. Black Tie attire is optional. The three course dinner will feature filet with shrimp scampi for the entree. There will also be a vegetarian options available. **Price: \$125 per person. Tickets must be ordered in advance.**
