Opening Ceremony & Special Lecture

Nick Rebel
Welcome and Introduction for Opening Session

Gazi B. Zibari, MD
US Section President’s Welcome and Introduction of Special Lecture

Special Presentation
Andrew Klein, MD
Barbers of Civility

Management of Portal Hypertension
Horacio R. D’Agostino, MD
Role of TIPS in the Management of Portal Hypertension

Adel Bozorgzadeh, MD (Declined invitation/conflict)
Role of Different Types of Surgical Shunts in the Management of Portal Hypertension

Cataldo Doria, MD, PhD
Role of Liver Transplantation in the Management of Portal Hypertension and HCC

Late Complications Following Repair of Congenital Malformations
Belinda H. Dickie MD, PhD - Cincinnati Children's Hospital Colorectal Center
Anorectal Malformations and Megacolon

David W. Kays, MD - University of Florida
Congenital Diaphragmatic Hernia and Pulmonary Malformations

Saleem Islam, MD - University of Florida
Esophageal Atresia and Tracheoesophageal fistula

Lunch Presentation Day 1
Domingo T. Alvear, MD
The Global Surgical Burden of Disease - Who Can Help and How Can We Help?
06/06/13 01:30 PM – 02:00 PM
Keynote Lecture Day 1

C. Daniel Smith, MD
Keynote Lecture: Advances in Esophageal Surgery, What Have we Learned in the Past 20 Years and Where are we Going

06/06/13 02:00 PM – 03:30 PM
Minimally Invasive Bariatric Surgery Technical Options

Jennifer Wilson, MbchB
Complications requiring Reoperation and Readmission after Laparoscopic Roux-en-Y Gastric Bypass and Laparoscopic Sleeve Gastrectomy

Jennifer Wilson, MbchB
Upper GI Endoscopy is an Essential Precursor to Sleeve Gastrectomy

Bestoun Ahmed, MD
GI Bariatric Surgery: Latest Advances

Mubashir A. Sabir, MD
Minimally Invasive Gastric Banding

Quyen D. Chu, MD
Management of Gastric Malignancy

06/06/13 03:45 PM – 05:30 PM
Vascular Surgery and the Diabetic Foot

C. Daniel Smith, MD
Special Introductory Lecture: The Drive To Eliminate Surgical Site Infections - Bundled Interventions Work

Tze-Woei Tan, MD
Clinically significance incidental Computed Tomographic (CT) finding in patients undergoing Endovascular Aortic Aneurysm Repair

Joshua Salvador, MD
Salvage of Limb with Diabetic Gangrene of the Foot

Potential topics in need of speakers:
- Prevention of neuropathic ulcers
- Drainage of foot abscesses and infections; should it be antibiotics first, I&D first or a combination of both.
- Vascular assessment: what is important, how much needs to be improved, Percutaneous intervention enough or open bypass is better.
- Foot reconstruction procedures; flaps, free tissue transfer, skin graft. Who needs to do it?
Research Scholarship Competition

Jasneet S. Bhullar, MD
A True Orthotopic Gastric Cancer Murine Model Using Electrocoagulation

Phillip Brazio, MD
Total Face and Multi-Organ Procurement From a Brain-Dead Donor: Institutional Experience and Proposed Algorithm

Sushant Chaudhary, MD
Acute Appendicitis in Elderly: Diagnosis and Management Still a Challenge

Jonathan Egle, MD
Pathology Encountered on Short-Term Surgical Mission Trips to the Dominican Republic

Ali Reza Hamidian Jahromi, MD
Arterial Versus Venous Fluid Resuscitation; Restoring Cardiac Contractions in Cardiac Arrest Following Exsanguinations

Johanna Serrano, MD
Midgut Volvulus in Adolescents and Adults; Incidence, Diagnosis and Management

Ali Soltani, MD
Revision Decompression and Collagen Nerve Wrap for Recurrent and Persistent Compression Neuropathies of the Upper Extremity and Systemic Review of the Literature

Gokulakrishna Subhas, MD
Bupivacaine Pain Pumps in Rats Leads to Increased Adhesions and Does Not Decrease the Neuroma Formation

Philip Sunu, MD
Review of Colorectal Anastomotic Leaks Based on Indications for Surgery, Benign vs Inflammatory Bowel Disease vs Neoplastic: a Ten Year Retrospective Study

Simon Willis,
Positive Predictive Value for ConfirmMDx Methylation Testing on Negative Prostate Biopsies

Thomas D. Willson, MD
Comparison of Mammographically and Self-Detected New Breast Lesions at a Community Breast Cancer Center
06/07/13 10:00 AM – 12:00 PM
What Kind of Life? Bioethics vs Medical ethics ; Highlighting the Differences
Frank P. Bongiorno, MD
Medical Ethics vs Bioethics - when do they differ?

06/07/13 12:00 PM – 01:30 PM
Lunch Presentation Day 2
James Davis, MD
A Trauma Training Program for Countries with Developing Trauma Systems

06/07/13 01:30 PM – 02:00 PM
Keynote Lecture Day 2
Michael S. Nussbaum, MD
Keynote Presentation: The Application of Robotic Technology in Minimally Invasive Surgery

06/07/13 02:00 PM – 03:30 PM
Integrative Multi Disciplinary Management of Peripancreatic Fluid
Mark R. Laftavi, MD
Pancreas Transplantation (PTX) with Venous Drainage to IVC: Short and Long-Term Outcome
Horacio R. D’Agostino, MD
Percutaneous Drainage of Peripancreatic Fluid Collections - a case presentation
Robert Gamarro, MD  ???? (Not sure who this is – need more info)
Endoscopic Ultrasound Drainage of Peripancreatic Fluid Collections - a case presentation
Michael J. Jacobs, MD
Laparoscopic Drainage of Peripancreatic Fluid Collections - a case presentation
M. Hosein Shokouh-Amiri, MD
Refractory Abdominal Pain to chronic pancreatitis: Rule of Total Pancreatectomy and Auto Islet Cell Transplantation
Management of Mediastinal Pathology

Francis J. Podbielski, MD
Spontaneous Mediastinal Emphysema - A Clinical Quandary

Sibu P. Saha, MD
Trends and Practice Pattern in the Management of Thoracic Empyema

Ara S. Klijian, MD (Declined Invite – Conflict)
Diagnosis and Management of Mediastinal Mass

Francis J. Podbielski, MD
Presentation and evaluation of young adults with mediastinal emphysema and Proposed pathophysiology for this condition

Challenges for the Acute Care Surgeon

Ashley Mekala, DO
Thigh Hematoma: A different type of compartment needing a different type of approach

Jesse Flores, MD
Percutaneous Retrieval of Retrohepatic IVC Missile

Lacey Stelle, MD
Traumatic Abdominal Wall Hernia: A case series from a rural level I trauma center

Mallory Williams, MD
Management of the Exsanguinating Patient; What the Trauma Surgeon Knows That All Surgeons Should Know

Lou M. Smith, MD
Management of the Abdomen that Won't Close in Trauma

The Dr. Arno Roscher Endowed Lecture

Richard Cote, MD – University of Miami
Newest in Surgical Pathology for the General and Specialty Surgeon (Tentative Title)
06/08/13 10:30 AM – 12:00 PM
Robotic Surgery and Other Technology Advancements

Brad Bilowus, BS
Prostate Cancer High Intensity Focused Ultrasound Therapy Biomedical Challenge In Development of Probe Pressure Sensor

Gokulakrishna Subhas, MD
Percutaneous Drainage of Diverticular Abscess Should Be Limited to Two Attempts for Recurrent Diverticular Abscess

Cataldo Doria, MD, PhD
Robotic assisted organ transplantation

Marc R. Dean, MD
TORS: How Robotic surgery is changing Head and Neck Surgery

Robin A. Lacour, MD
Robotic GYN Surgery

Phillips Kirk Labor, MD
Review of Cataract Surgery: Where it Has Been and Where it is Going

06/08/13 12:00 PM – 01:30 PM
Lunch Presentation Day 3

Victoria J. Powell, JD
Management of Legal, Tax, and Insurance Liability Risks for Practice Profitability in 2013

06/08/13 01:30 PM – 02:00 PM
Honorary Fellow Lecture

Paul M. Colombani, MD, Professor of Pediatric Surgery & Chairman of the Department of Pediatric Surgery, Johns Hopkins
Title not yet received
Transplantation in the 3rd Millennium

Joshua Salvador, MD
Transplantation of a Severed Arm

Reza F. Saidi, MD
Translational Strategies to Improve Outcomes of Liver Transplantation: From Bench to Bedside

Cataldo Doria, MD, PhD
Treatment of HCC: Resection vs. Transplantation

Pick one of the following:

Mark R. Laftavi, MD
Are the Outcomes of Pancreas Transplant (PTX) in Small Centers Defensible?

Mark R. Laftavi, MD
Risk Factors (RF) Affecting Long-Term (LT) Outcomes in Older Kidney Transplant Recipients (KTR): 10 Year Outcomes

Mark R. Laftavi, MD
Combined Induction Therapy with Rabbit Antithymocyte Globulin (Ratg) and Rituximab (Rtx) in Highly Sensitized Kidney Recipients: Long-Term Outcomes

Surgical Oncology

Nader N. Hanna, MD
Comparative Effectiveness and Survival Benefit of Liver Directed Therapy, Systemic Chemotherapy and Radiation Therapy in Stage Four HCC: A SEER-Medicare Analysis

Jobelle Joyce Anne Baldonado, MD
Leiomyosarcoma Arising from the Right Lobe of the Liver: A Case Report

Mohammad Kazem Fallahzadeh, MD
Accuracy of 18F-FDG PET/CT in the Diagnosis of Pancreatic Lesions: A Single Center Experience

Alireza Hamidian Jahromi, MD
Prognostic Significance of SUV Max Value at the Time of Initial Diagnostic 18F-FDG PET/CT in Patients with Pancreatic Adenocarcinoma

Nikhil Rajadhyaksha, MD
The Utility of Preoperative MR Breast in Changing the Surgical Management of Patient's Newly Diagnosed with Breast Cancer
Concurrent Sessions
06/07/13  08:00AM - ??
Seeing and Sticking with Sound – Lectures and Hands-on Workshops

Faculty
Kathy Crow, PA-C; Horacio D’Agostino, MD; Zaki Hassan, MD; Annette Rebel, MD; Asser Youssef, MD
Wayne Zhang, MD

Topics
- Basics of US imaging and how to operate an US machine
- Principles of US guidance for needle localization.
- Vascular access (arterial and venous)
- FAST scan
- US for perioperative care: From Diagnosis to Therapy
- Echocardiography for Non-Cardiac Surgeries
- US guidance in Pain Medicine

06/07/13 09:00 AM – 03:00 PM
Neurosurgical and Orthopaedic Platform Presentations 1

W. Craig Clark, MD
Paraganglioma of the Cauda Equina

Gerald Greenfield, Jr., MD
A Hemiarthroplasty Experience Using a Proximal Femoral Cerclage Cable

Kingsley Chin, MD
Stabilizing Effects of a Particulate Demineralized Bone Matrix in the L4- Interbody Space with and without PEEK Cage - A Literature Review and Preliminary Results of a Cadaveric Biomechanical Study

06/08/13 09:00 AM – 05:00 PM
Neurosurgical and Orthopaedic Platform Presentations 2

W. Craig Clark, MD
The Role of Hemicraniectomy in the Management of Patients with Space-Occupying MCA Infarction

Alfonso E. Pino, MD
Mitochondrial Encephalomyopathies: Case Report and Review of Literature

Kingsley Chin, MD
Understanding The Biomechanical Difference Between Standard and Compact 1-Level Plates for Anterior Cervical Fixation

Kingsley Chin, MD
Biomechanical Evaluation of Two Methods of Three-Level Cervical Plating: Use of Multiple Single-Level Segmental Plates versus a Single Plate
Unplaced Abstract Submissions
