**All relevant financial relationships have been mitigated and resolved using one of the following mechanisms:**

**1. Peer Review of content (PowerPoint presentation, manuscript or any other materials that provide information about the content of the presentation) to ensure presentation is balanced.**

**Moderators with a financial relationship will have a co-moderator who has no relationships. Co-moderator will ensure that the potentially conflicted moderator does not make treatment recommendations and remains unbiased during his participation.**

**2. Change the content of the person's assignment.**

**3. Limit the Content to a report without recommendations.**

**4. Replace the faculty member.**
